Terms & conditions.

Rates and LTV		
Loan to value	Residential rates (pcm)	Commercial / land with planning rates (pcm)
</=50%	0.70%	0.742%
</=55%	0.75%	0.80%
</=60%	0.80%	0.85%
</=65%	0.825%	0.875%
</=70%	0.85%	0.90%
</=75%	0.875%	0.916%

LTV is based on loan amount inclusive of retained interest. Rates may also vary according to loan size, asset quality, borrower strength etc.

LTV is based on loan amount inclusive of retained interest and the greater of (i) current market value or (ii), if the property was purchased within 3 months of the loan, a cost basis (purchase price plus verified borrower paid completion costs/ fees and any build cost expended).

Loan exit, servicing and affordability

The borrower must be able to demonstrate a realistic exit strategy.

If the property is being purchased at the time of loan origination, the borrower's liquidity position is important to the underwriting decision. Proof of funds or other sources of liquidity (asset sales, personal income, etc) are needed to determine the borrower's ability to cover deposit and completion costs.

Interest will normally be retained for loan servicing for the term of the facility.

For loans where ongoing interest is serviced by the borrower, liquidity is required to support at least 3 months of interest payments.
